

Claim 216639-00 Notes

10-16

This claim is being sent up in order for it to be re-assigned to another adjuster in the area. Larry Greimme is going to make the assignment. I was given the claim only to have a computer to work it on. The primary adjuster, Mike Gamber, had a glitch in his Quest Hail program that would not allow defoliation to be entered on a soybean hail loss. There has been another loss since the loss Mike and I worked, therefore there is a need to now get both losses addressed. The agent is aware of the process this claim is taking for re-assignment.

Withdraw this claim. Golen Sorrison has the 218247-00 claim. There are many acres of Soybeans to be adjusted. Golen will enter these two items on his claim and all will be paid on same claim.

**Subject:** Bruhn (the endless hail claim)

I know you are continuing to work on this nightmare. Just something you should know, for some reason and I do not know how Al Bruhn knows, there is a neighbor that has an HPP policy with us written by FCS of America. The neighbor is Hans Hoffmeier (#125241) and he has a couple of fields across the road from some of Al's soybeans.

One field is section 2 T 84 R 43 paid Hans 19.9% on soybeans and Al in section 1 paid 2.6%. The system says the township is R 42, but Terry Nielsen says that is wrong as Terry knows all about this, which is how I know.

The other field is in section 11 T 84 R 43 paid Hans 32.1% on soybeans and Al in section 12 paid 5.2%. It could be both claims were worked correctly and paid correctly, but this is why Al does not agree with our adjustment of his soybeans. Al heard someone in town say that Hans was paid a 39% hail loss on his soybeans by RCIS.

Also, do not bring up Hans Hoffmeier with Al as Al cannot stand the man as they compete for rent on some of the land each of them farm.

It looks like the 5 previous loses were assigned to Jim Baldwin, Craig Polson, Mike Gamber, and Clay Manes and show Randy Feldman currently that needs to be added to this one. Galen Sorenson has claim # 6 and called me yesterday. I asked him why we waited so long and he said the insured was too busy and kept putting it off. Larry Grieme said Galen called him and asked for help so he took 6 guys down and worked it in pairs. He said plenty of good sample areas were left. One field had 25 sample areas! I asked Larry to do the review since he has been involved in it. He is going to send to me to look at before it goes in. The proof shows DOL of 9-11-12 with Randy as the adjuster.

Please use drop down arrow in each box to fill in answer:

- A. Is Staging Correct?
- B. Were the correct charts/factors used?
- C. Do the acres reflect the percent of damage?
- D. Is complete documentation included for Non-Waiver situations?
- E. Are all facts noted in the fact sheet?
- F. Were the minimum number of counts taken?
- G. Was loss uploaded or mailed on a timely basis?
- H. Were NCIS procedures followed?
- I. Was the insured or authorized representative signature verified?
- J. Was agent contacted by adjuster before and after the loss was completed?
- K. Are all signatures and pictures included?
- (HPP may not have the applicable signature at the time of field review.)

Date Reviewed with Adjuster: 

## Comments:

This loss was not submitted to the company until 9-26. Gaylen called me on 10-17 saying he needed some help on this claim because of all the acres to be looked at. On 10-22 there were six of us that started on this claim. There was 6500 acres of shatter to count. It was finished on 10-23. There were very good samples left to look at in all of these fields except one 77 acre field where no samples were left. No loss for this one. Most of the shatter was light but the acres to the south of Mapleton had some heavy shatter. I feel the loss was worked right, only wish we could have gotten it worked sooner.

Subject: Bruhn Farms Joint Venture

Two dates I can be sure of when 6 adjusters met Al Bruhn on Oct. 29 & 30th to work his hail shatter loss on several large fields. Prior to that I tried to contact Al on his cell phone with little success. His mailbox was always full so then I would call his agent Terry Nielsen who said I'll get him for you. Well it didn't take more than a few minutes and Al would call me. Our 1st conversation centered on prior claims 2012, one was a replant claim on beans and a corn claim, finally conversation about this shatter loss claim. He felt it should have been worked before he had to leave samples. I told him I could not work this claim alone because of all the acres and was waiting for other adjusters work loads to ease up so they could help. One thing Al told me more than once he would not go along with us, instead he sent a hired hand to show us the fields. He always told me he would wait til we were done adjusting and then we would look at the BIG picture for settlement. After completing the claim on the afternoon of Oct. 30th I had intended to go and see Al but his hired man told us he had been really sick that day so I cancelled on that. Some days later I talked to Al about the proof and he wanted me to send it to his agent so they could go over it. In closing the agent Terry Nielsen has been very cooperative and helpful. As far as phone call times and dates I believe I could get my phone records and pinpoint some dates Galen Sornson
